ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: MULTIFUNCTIONAL ELECTRIC-POWERED INFANT CAR WITH CRADLE FUNCTION

(57) Abstract: A multifunctional electric-powered infant car with cradle function comprises a car body (1) and a cradle unit (2). The cradle unit (2) is mounted on the car body (1) such that the cradle unit (2) can be moved back and forth. The cradle unit (2) has a supporting frame (21) vertically mounted to the car body (1) and an inclination-adjustable back part (23) for allowing an infant to be laid on the cradle unit (2). The car body (1) comprises a car body driving unit (13) mounted to the car body base (11) for transmitting a one-way rotating force generated from a driving motor (131) to driving wheels (133) via a driving force transmitting part (132), and a cradle driving unit (14) to receive the driving force generated from the driving motor (131) of the car body driving unit (13) for moving the cradle unit (2) back and forth.
